

```
//review and pursue 11 - file_function.js

//make a pop-up function:
function create_window(file){

    //set the window properties
    var specs = "location=no, scrollbars=no, menubars=no, toolbars=no,
resizable=yes, left=0, top=0";

    //set the url:
    var url = "show_file.php?file=" + file;

    //create the popup window
    popup = window.open(url, "FileWindow", specs);
    popup.focus();

} //end of function
```
